Yes the GWTSC supports R8. I'm sure Kelly and Dave have info on those activities. We also have conducted research projects and more thorough site investigations through the Region. Both the ASARCO/East Helena project (PRB for inorganic contaminants) and the Pavillion project began as technical assistance efforts in support of the Region. Both are still active (although the Pavillion site is not a research project). We also had a long-term research project at the Denver Federal Center studying the life of another PRB (I believe that project is now closed; at least GWERD researchers haven't been to the site for some time). Will be sending Dever Fed Center and East Helena info along today.

**Subject:** INFORMATION NEEDED. Re: REQUEST: Visit w/ RA and R8 Staff

Thank you all. I am also adding in Teresa, Subhas and Herb.

This need not be detailed. Feel free to send existing information or materials.

Gary and Al, please be sure to include any activities ongoing or recently completed in R8 through your Technical Support Centers.

If you have no activities with R8 to report, please respond indicating so.

Thanks again,  
Cindy

**Subject:** REQUEST: Visit w/ RA and R8 Staff

All,

Cindy will be traveling to visit R8 next week. If your division or staff have any current projects with R8, please *reply with a short description of the work and who it involves*. This will allow Cindy to go informed.

**Please send your short descriptions by Noon tomorrow, 3/15/13.**

Thank you,

**Kelly Collins**
